A Burning behavior
B Contact Heat
C Convective heat
D Radiant heat
E Small splashes of molten metal
F Large splashes of molten metal

« x » non tested

A Abrasion
B Blade cutting
C Tear resistance
D Perforation

Use only within the risks covered above

Maintenance :

The washing of gloves or mittens can alter the performance , so it's not recommended to wash them. Grease or oil on a glove can ignite, a wet glove transmits faster heat. washing is not advised

Storage : Protected from the light and in a dry place, free of moisture, oils, greases...

Recommandation : To cool down the glove faster, do work with 2 pairs in alternation. Do avoid filing of grease and solvent that could ignite in contact with heat
